SUBJECT DESCRIPTIONS

BIBLICAL STUDIES UNITS

UNIT 101: INTRODUCTION TO THE BIBLE (Diploma 1)

This presents an overview of all the books of the Bible with particular attention given to seeing how they all fit together. Students gain a basic understanding of the developing story of God's work in the world as it is revealed through the Old and New Testaments. They look at the background to the Bible and at the various tools available to them to assist in research in biblical studies. The unit helps students to understand the Scriptures from a Biblical Theology perspective.

UNIT 102: BIBLICAL INTERPRETATION (Diploma 2/3, A)

This unit helps students to develop their skills in exegesis of the biblical text. They learn how to understand the meaning of the text for the original readers by learning about the different types of biblical literature and their literary conventions. They consider principles for interpreting the theology, wisdom and ethics of the bible for life today. Finally, they consider how to use the results of their interpretation for preaching and teaching.

OLD TESTAMENT UNITS

UNIT 116: THE PENTATEUCH (Diploma 1)

The theme of the Pentateuch is explored as one story. Thus, the Pentateuch is about how God began to renew the good world he made after it had been spoiled by sin. In particular he sets about a plan to work to bless all nations through his covenant promises to Abraham. They begin to find some fulfillment in Israel, but are not yet fulfilled by the time the end of Deuteronomy is reached. The development of Israel and the stories and emphases of each book are also explored as they make their contribution to the overall theme. Implications for the future and Christ are also explored.

UNIT 117: JOSHUA TO 1 KINGS 11 (Diploma 1)

The themes of Deuteronomy are worked out in Israel's history first in a positive way through Joshua, then in a harsher way through the less faithful years of the Judges. In Samuel there is the development of covenant kingship. Covenant kingship reaches typological significance in the kingdom of David and Solomon. Attention is paid to how God's covenant with Abraham and Israel is developed further through God's covenant with David and its implications for the future and for Christ.

UNIT 118 DIVIDED KINGDOM TO EXILE AND PROPHETS (Diploma 2/3, A)

The divided kingdom and exile are explored especially from the prophetic standpoint of both the book of Kings and the various prophets who spoke in this period of time. The role of the covenant in God's judgment and promises of restoration is considered. Some selection of the following prophets are studied: Jonah, Amos, Hosea, Isaiah, Micah, Nahum, Zephaniah, Habakkuk, and Obadiah.

UNIT 119 LIFE IN EXILE, RESTORATION AND PROPHETS (Diploma 2/3, A)

Life in the exilic community is examined along with the restoration of a remnant of Israel to the land. We read the historical books of Ezra and Nehemiah along with a selection from the prophets Ezekiel, Daniel, Jeremiah, Haggai, Zechariah and Malachi and the writing of Esther.

UNIT 120 WORSHIP AND WISDOM WRITINGS OF ISRAEL (Diploma 2/3, B)

This unit looks at the expressions of Israel's Worship and Wisdom as found in the books of Psalms, Proverbs, Job, Ecclesiastes and Song of Songs. We consider both the original meaning of a selection of Psalms as well as their Christian interpretation in worship. The wisdom of Proverbs, Job, Ecclesiastes and Solomon's Song of Songs is individually explored and compared.

NEW TESTAMENT

UNIT 121: SYNOPTIC GOSPELS (Diploma 1)

This unit examines the first three gospels with particular emphasis on Matthew's gospel. After an introduction to the synoptic gospels in general, the course focuses on the content and significance of Gospel of Matthew. Selected passages are exegeted. Special attention is given to the Sermon on the Mount.

UNIT 122: THE WRITINGS OF LUKE (Diploma 1)

In this unit we study the writings of Luke, the man who wrote more of the New Testament than anyone else. We look at the structure of Luke and Acts, and at how Luke and Acts are two parts of a single work. A special study is made of the parts of Luke not common to Matthew and Mark: in particular the birth narratives, the parables found only in Luke, and Luke's account of the resurrection and ascension of Jesus. In Acts we examine the way in which the gospel spread out from Jerusalem, to the Samaritans and to the Gentiles under the leading and in the power of the Holy Spirit. We also seek to understand more about the world in which the early church was planted and grew.

UNIT 123: PAULINE EPISTLES 1 (Diploma 2/3, A)

In this unit we study the early Pauline Epistles: Galatians, 1 & 2 Corinthians, and 1 & 2 Thessalonians. We look at the major themes of each letter and do a more detailed study of some selected passages.

UNIT 124: PAULINE EPISTLES 2 (Diploma 2/3, B)

In this unit we study the later Pauline Epistles: Romans, Ephesians, Philippians, Colossians, Philemon, 1 & 2 Timothy and Titus. We look at the major themes of each letter and do a more detailed study of some selected passages.

UNIT 125: THE GOSPEL OF JOHN (Diploma 2/3, A)

In this unit we will look at the Gospel written by John. After an introduction to John's writings, the course looks at themes and particular emphases of John's Gospel. It exegetes selected passages.

UNIT 126: HEBREWS TO REVELATION (Diploma 2/3, B)

This unit begins with a brief overview of Hebrews and the non-Pauline Epistles. The structure and major themes of Hebrews, and some of the other epistles, are examined. A large part of the unit is devoted to coming to a good understanding of the book of Revelation. We begin by looking at what sort of writing Revelation is and ask why John wrote this book. We look at the structure of Revelation and at the meaning of the picture language used by John. We look at the Old Testament background to Revelation, how original readers would have understood the book of Revelation, and the meaning of Revelation for today.

DOCTRINAL STUDIES UNITS

UNIT 131: THE KNOWLEDGE OF GOD (Diploma 1)

In this unit we ask two main questions: (1) How can we know anything about God? and (2) What can we know about God?

In answering the first question, we look at how God has revealed himself to us - in the world, in Jesus Christ and through the Bible. We also look at what we mean when we say that the Bible is "The Word of God", and how the church came to recognise which books belong to the canon.

In answering the second question, we look at the attributes of God (what the Bible tells us about God), and we look at the doctrine of the Trinity (that there is only one God who has always existed as three persons - the Father, the Son and the Holy Spirit).

UNIT 132: HUMANITY AND SIN (Diploma 1)

This unit considers the nature of human beings as created by God and the effect of sin on that nature and the world. It will also look at other issues such as the work of God as Creator, the extent of God's control over the world, the nature of evil, and spiritual beings - angels, demons & Satan. Students will be encouraged to develop a biblical understanding of the world around them as it was originally created and as it is today.

UNIT 133: GOD'S SOLUTION TO SIN (Diploma 2/3, A)

God's solution to sin is Jesus Christ. In this unit we study the person and work of Jesus Christ. In the first part of the unit we look at who Jesus Christ was and is. In the second part of the unit we look at how the life, death and resurrection of Jesus Christ saves us from the power of sin.
